# FAQ'S

## WHAT DO SHEDS N HOMES SUPPLY?

We supply the steel shell and structure of your new home, enabling you to source the rest without having to pay a builder's margin. Many of our competitors offer the full package including windows, doors, gyprock and plumbing – however, this comes at a price inflated by the additional margins. Our steel kit homes have been designed for the owner builder.

## WHAT DO I NEED TO SUPPLY?

Being the owner builder offers tremendous flexibility as you are in control of the ultimate look of your home. You will need to source trades, builders, doors, windows, thermal break, insulation, gyprock, flooring, fixtures, lighting and all other aspects of fitting out your home from your preferred suppliers. You are also left to take care of purchasing all appliances, furnishings and landscaping your property.

## WHAT ABOUT PLUMBING & ELECTRICAL WORK?

It's amazing how much you can save by project managing your kit home build. Whilst you will need to hire contractors to do the work that requires special skills and/or licenses (like plumbing and electrical), you can save in other areas by completing the tasks yourself or enlisting the help of family and friends.

## DOES IT TAKE MUCH TIME?

Ultimately, this is up to you! As the builder you will need to coordinate your time, materials and trades effectively. Done right however, your home will be built to schedule! By being an owner builder, you will have the distinct advantage of working to a deadline that suits your needs – not somebody else's! Working weekends, after work hours or by simply taking some annual leave will put you on your path to building your own home in a time frame that suits you.

## HOW DO I PUT THE FRAME & TRUSSES TOGETHER?

We believe in simplicity and erecting our buildings is just that, simple! We provide all of our owner builders with a comprehensive set of floor and panel plans that clearly outlines each and every section in the most simplistic manner. Our panel-by-panel plans contain easy to understand instructions about what is required at each stage.

# AVAILABLE OPTIONS

## THE FLOORING SYSTEM

There are two flooring options available, the price advertised is for the house to go on a slab. The second option involves steel posts, bearers and joists for the entire bottom floor, with this option all you would need to supply is the concrete around the posts and your choice of timber flooring, be it polished timber flooring or particle board.

Consider the following before deciding:

1. Price of concrete vs raised flooring system.
2. How will an elevated house affect you? Many owner builders prefer to use the flooring system because they can stand the building first then do the plumbing. The flooring system's height is also beneficial if you are using composting toilets.
3. What option will be the most aesthetically pleasing? Try imagining how your house would look if it was elevated off the ground. Which option best meets your requirements?

Both are conventional ways of building and come with full engineering plans.

## RAISED FLOORING SYSTEM OPTIONS

	Non CYC	CYC
600 system - No Verandah	\$4,150	\$4,150
600 system inc Front Verandah	\$5,300	\$5,300
1500 system - No Verandah	\$4,700	\$7,500
1500 system inc Front Verandah	\$6,050	\$8,800

Steel bearers, joists and posts to raise the floor above ground level are provided. Excludes flooring, stairs or balustrade. Raised flooring systems are not available in snow load areas.

## OTHER CUSTOM OPTIONS

Customise your Kit Home to fit your vision and requirements with our range of available options.

	Non CYC	CYC
BlueScope Steel COLORBOND® roof sheeting	\$350	\$400
Front Verandah (4.4m W x 3.0m L)	\$1,350	\$1,700
Upgrade Wind Classification to N4	\$5,500	N/A

## SNOW LOAD (only available on slab)

0 kpa - 1.5 kpa	\$1,700
1.5 kpa - 2.0 kpa	\$4,500
2.0 kpa - 2.5 kpa	\$6,800

All quoted prices (including extras) will be fixed for a 2 month period commencing from the date that a purchase agreement is issued. Once manufacturing commences, the price is fixed.

# BUILDING ON NEARLY 20 YEARS OF STEEL KIT HOMES

## ABOUT US

Sheds n Homes is a family owned and operated Australian company and a leading supplier of steel buildings throughout Australia.

With our large portfolio of steel kit homes sold over nearly 20 years, you have the peace of mind that comes with buying from a trusted national supplier.

## AUSTRALIAN STANDARDS COMPLIANCE

Our kit homes are designed in accordance with the Building Code of Australia and the National Construction Code (NCC).

## PREMIUM QUALITY

All our DIY kit homes are manufactured from Australian BlueScope Steel using a combination of Genuine BlueScope - 450MPa GALVASPAN® cold-rolled structural members, TRUECORE® steel stud and truss framing, and ZINCALUME® and COLORBOND® steel sheeting options.

## RELAX! WE DELIVER TO YOU.

Please discuss the time frames for your purchase with your sales person.

## MANUFACTURING & DISTRIBUTION LOCATIONS

Sheds N Homes' networked manufacturing helps control logistics costs, reduces manufacturing times and enables the delivery from a local depot to site for most of our customers. Your sales person will discuss delivery options with you.

From time of order, the manufacture and delivery of your steel kit will take between six and eight weeks.

## COUNCIL APPROVAL GUARANTEE

Our steel kit homes come with a Council Approval Guarantee, ensuring they exceed Australia's Class 1 building codes. If your design doesn't meet council requirements, we'll refund your deposit. Trust our experience for a hassle-free path to your dream home—choose Sheds n Homes for unmatched quality and peace of mind.

Visit [www.shedsnhomes.com.au/info/council-approval-guarantee](http://www.shedsnhomes.com.au/info/council-approval-guarantee) for full Terms & Conditions.

# GENERAL SPECIFICATION

The kit home general specifications are set out below.

## STANDARDS AND CODES

This building is designed in accordance with the following codes and standards:  
NCC: 2022 AS/NZS 1170.1:2002 AS/NZS 1170.2:2021 AS/NZS 1170.3:2003  
AS/NZS 1170.4:2007 AS 2870:2011 AS 3600:2018 AS 4100:2020 AS/NZS  
4600:2018

## DESIGN CRITERIA

Unless otherwise stated, this building is suitable for the site wind classification of up to N3 for non cyclonic and C2 for cyclonic. No allowance has been made for earthquake or snow loading. It is the responsibility of the purchaser to ensure that this classification is suitable for the site and proposed building use. This should be obtained from a suitably qualified and insured person/company.

## DIMENSIONS

All dimensions nominated are nominal sizes only.

## WINDOWS AND DOORS

Window and door locations are nominated on the plans. The supply of windows and doors are not included in the quoted price. To avoid on-site damage, these are best purchased locally when required.

## DRAWING FOR COUNCIL SUBMISSION

Full set of plans for submission to council including engineering approval. Site specific drawings are not provided, eg site plan, drainage plan etc. Site specific reports are also not provided, eg bush fire protection plan, energy efficiency report.

## ROOF AND WALL SHEETING

Roof sheeting is supplied in Corodek. Wall sheeting is supplied in Corodek and fixed horizontally.

## FASTENERS

All connections are tek screwed. Roof and wall screws provided to Climaseal® 4 standard. All other screws class 3.

## SLAB

Designs provided for Class A, S, M or H1 soil conditions with a safebearing value >100kPa.

## ENVIRONMENTAL CHARACTERISTICS

All components of the steel building are designed to suit the conditions generally described as "non-aggressive". Care must be taken with any steel building to ensure that regular maintenance is carried out. The suitable conditions and maintenance requirements are defined in the various BlueScope Steel Technical Bulletins.

## GUTTERS

The gutter type supplied will be nominated by our supplier as the most common type for your area.

## MARKING, CUTTING AND DRILLING

Most components are marked for easy identification and placement and are cut to length. It will be necessary to cut and/or drill some components on site.

## COLOURS

Certain products and areas have a limited colour range. Please consult your representative for more information regarding available colours in your area.

## DOWN PIPES

Down pipes are to be provided by others to suit your roof and water tank requirements.

## DELIVERY

Delivery is quoted for standard delivery routes. Additional fees apply where the address is beyond the normal route. Alternately, delivery can be organised by the customer ex-works.

Ex-works: Collection of your steel kit home will be from our supplier's depots within your nominated city.

## READY TO MAKE YOUR DREAM HOME A REALITY?

Kick start your Kit Home journey today and take the first step towards the home you've always envisioned.

Contact us today to arrange your purchase agreement where you will find complete payment information including your unique BPAY reference numbers and your tax invoices. Payments can be made in three stages: 15% deposit, 45% secondary payment and 40% final payment.

**Please note the following payment guidelines:**

- A) Initial payment of 15% of your contract price will enable you to receive your floor and engineering plans for you to get your council approvals under way (if not approved, this will be refunded in full).
- B) Second payment of 45% of your contract price (see your purchase agreement for actual amount) will commence manufacturing. (Allow approx 8 weeks for manufacture).
- C) Final payment of 40% of your contract price (10 days prior will confirm your delivery).

**Note:** Option A will not secure the price; you will be subject to any global steel price rise; percentage required may vary subject to state government legislation.

### SHEDS N HOMES ACCEPTS THE FOLLOWING PAYMENT METHODS

Terms and conditions apply, as per our quote letters and purchase agreements

\*All pricing is effective from 21/03/2024 and are GST inclusive and in Australian dollars. Non cyclonic and cyclonic pricing is based on QLD, NSW, VIC & SA regions. NT, WA & TAS will incur additional delivery fees. To confirm final pricing in your region please contact your local Sheds n Homes franchise. All Kit Home Pricing is for the supply of building frame only including roof and wall sheeting. Due to ongoing product development, the seller reserves the right to make design and engineering changes up to the time of commencing manufacture. C&Z indicates COLORBOND® steel wall sheeting and trim and ZINCALUME® roof. All roofing supplied in ZINCALUME® unless otherwise stated. Building images are representational and are for illustrative purposes only. Whilst every care is taken in the publishing of prices and goods, Sheds N Homes reserves the right to correct any errors or misprints at any time without notice. TRUECORE®, ZINCALUME® and COLORBOND® steel are registered trademarks of BlueScope Steel Limited. For the full terms and conditions go to [www.shedsnhomes.com.au/terms-and-conditions](http://www.shedsnhomes.com.au/terms-and-conditions) or ask your sales person for a copy.
